

Intermediate to Senior Architectural Technologist

Life is too short for the wrong job!

WE ARE HIRING * WE ARE HIRING * WE ARE HIRING

Do you have so many skills that they are falling out of your pockets?

Are you sick of being uninspired?

Would you rather be part of a smaller, highly creative team where you have a voice?

Apply for this position with an Award-winning Architectural firm - tap in your creativity, nurture your entrepreneurial spirit and make a difference in your community!

THE FIRM

Allow us to be serious for a minute...

MJM Architect was founded on a simple idea: that a company can win by putting their customers and their staff before everything else. That is what we do and it has proven us right! With more creativity and experience per square meter than anywhere else, MJM Architect Inc. provides a complete range of architectural services, from pre-design (such as feasibility studies and space planning) to studies for evaluating property potential (including re-zoning analysis) and full scope design (interior, exterior, site).

MJM Architect Inc. is committed to environmental stewardship through the core belief that good design is sustainable. It is integral to the Firm's identity and a central component of our commitment to excellence. Our extensive project portfolios exhibit these values through a demonstrated expertise in site sensitivity, efficient use of resources, energy conservation and a conscientious approach to materials selection.

At MJM Architect Inc., we believe successful architecture isn't just about designing beautiful buildings that stimulates one's senses but creating a built environment that endures and contributes to a healthier, more sustainable lifestyle.

THE JOB

- Working closely with the Principal to produce schematic design, design development and contract documents.
- Producing 3D photo-realistic renderings using VectorWorks and/or Sketchup.
- Contributing to review drawings for omissions and inconsistencies.
- Assisting with converting design proposals into working drawings for building permit submission to municipalities.

YOU

- You have a Diploma in Architectural Technology or Bachelor's Degree with minimum of 2-3 years, post-graduate experience.
- You have experience with VectorWorks and/or Sketchup.
- You understand the value customer service and have lots to contribute to delivering outstanding client experiences.
- You are brilliant and you own it.
- You have the ability to produce quality drawings with required software in all architectural phases.
- You have ideas and love to share them.
- You have the ability to work well independently and can also to collaborate on designs, while working under deadlines/budget (a.k.a "Bring it on" attitude).
- You have a working knowledge of codes and design requirements specific to local geography.
- Solving problems using sound professional judgment is second nature to you.
- Gaining experience and learning new things is your thing.
- Flexibility (figuratively speaking), attention to detail and ability to multi-task represent you perfectly.
- You have excellent interpersonal and communication skills (oral and written).
- You are client-focused, able to work with all types of client in a professional manner.
 - You are on time, always.
- You are passionate about buildings and the built environment (obviously!).

- You love life and are inspired.
- You don't take anything for granted.
- You can share evidence of design innovation, technical achievement and creative accomplishment.

LAST BUT MORE IMPORTANTLY...WHAT'S IN IT FOR YOU

- The lifestyle you want.
- A culture of work/life balance.
- Competitive wage.
- Flexible work hours.
- Remote work options.
- Employee benefits plan. *
- Social responsibility initiative (get paid to volunteer for a cause dear to your heart).
- Summer hours - you get the option of kicking back at 1pm on Friday during July and August to beat the traffic for your camping weekend!
- Education, learning and development opportunities.
- Advancement opportunity. *
- No dress code, relaxed work environment, work in your slippers if you wish!

***after three months**

OUR HIRING PROCESS:

- You find or get sent this job posting.
- You read it and thin "wow, this company looks awesome" (and you are right).
- In the cover letter you are sending with your resume, you tell us you are interested (or be creative and send us a video selfie telling us why you are the right fit for us).
- We meet in person and chat.
- We think you are awesome (because you are) so we make you an offer.
- You accept the offer and start working with us.
- You are so happy and tell everyone how awesome your life has become.

GOT THE SPARK?

Don't miss out on this opportunity! Hurry up and let us know by sending your resume and cover letter (or a creative equivalent) to Mylene Brousseau - mylene@mjmarchitect.ca
